

Dear Mr Madge

I attach a document on behalf of the Cycling Opportunities Group for Salisbury (COGS) in response to the planning application for construction of a new Stonehenge Visitors Centre at Airmans Cross (S/2009/1527FULL). The document is also copied below. Please could you acknowledge receipt of this message because I have been unable to access the Environment and Planning website today to submit the comments online.

We would welcome a dialogue with planning officers, English Heritage and the Highways Agency for constructive discussion of our concerns with the aim of resolving the issues that have caused us to object to the proposals.

With best regards

Jimmy Walker
